

Annual Large Grant Application

A limited number of larger grants between \$2500 and \$15,000 are available through the Marquette Breakfast Rotary Club, primarily to benefit projects and causes that support Marquette County youth. The club evaluates grant requests at a meeting of its Contributions Committee in February of each year. Successful applicants are contacted to attend one of our weekly breakfast meetings, or larger event with other recipients, to accept the funds and briefly speak about their project. The Contributions Committee will only consider requests using this form and for which fully completed large grant requests and supporting documentation have been received via our website before midnight the second Friday in February. When applying, please notify us in an e-mail sent to jcantril@nmu.edu and piwiack@chartermi.net.

Past project and causes supported by Marquette Breakfast Rotary include after-school programs, youth recreation, art and science programs, youth scholarships, and programs assisting troubled youth or youth with special needs. Projects that focus on non-youth oriented programs (e.g., elderly- or environmentally-oriented projects) will be considered for funding once all youth oriented applications have been screened by the Contributions Committee and only to the extent sufficient funding remains to support projects of merit. Small grants typically range in size from \$200 to \$2500. Applicants seeking less than \$2500 must apply using our Annual Small Grant Application form and process. Local organizations may only apply for a single small or large grant each year.

In addition to submitting a completed application form, organizations must demonstrate they have tax-exempt status at the time of application. Documentation supporting such tax-exempt status (e.g., an official Letter of Determination from the IRS) must be provided at the time of application. In addition, applicants for large grants must submit a reasonably detailed budget indicating how the funds for a specific project will be spent including estimates for (a) equipment and supplies, (b) rentals or non-organizational services, (c) staffing and applicable fringe, and (d) other expenses such as printing, phone usage, mailings, or advertising. The Marquette Breakfast Rotary Club does not provide funding for organizations' ongoing operational expenses.

As a condition for being considered for funding in subsequent years, recipients must file a report by February 1 of the following year. That report will include narrative or tables (a) describing the project, (b) reporting how the funds from the previous grant were spent indexed to the initial budget as submitted, (c) the benefits following those expenditures, and (d) photographs of applicable activity for publicity purposes. Grants are made possible by the club's annual fundraiser, the Land & Sea Benefit Dinner and Auction, held the fourth Saturday in June at Frazier's Lake Superior Yacht Yard. Marquette Breakfast Rotary is a 501(c)(3) organization.

Name of Your Organization:

Tax ID Number:

Name for this Specific Project:

Amount being Requested from the Marquette Breakfast Rotary Club:

Mission of Your Organization:

Primary Contact Name:
